DILMIN EKANAYAKE

Software Engineering Undergraduate | Full Stack Developer (Intern)

Badulla, Sri Lanka | +94 77 1338918 | pasindusupun461@gmail.com

LinkedIn Github Portfolio

PROFESSIONAL SUMMARY

Software Engineering undergraduate with hands-on experience developing full stack web and mobile applications using React, React Native, Node.js, and modern database technologies. Experienced in building real-world client projects, including e-commerce platforms, service systems, and mobile applications with RESTful APIs, authentication, and payment integrations. Strong understanding of backend development, database design, and scalable application architecture. Seeking a Full Stack Software Engineering Internship to apply technical skills and contribute to production-level systems.

EDUCATION

- **Bsc (Hons) in Software Engineering** | CINEC Campus — 2023 - Present
  Current GPA: **3.71**
  Expected Graduation: **2027**
- **Diploma in Software Engineering** | CODL , Sabaragamuwa University of Sri Lanka — Completed
- **Diploma in Graphic Designing** | Wijaya Graphics, Sri Lanka — Completed

PROJECTS

- **Sniper Car Service – POS & Vehicle Number Plate Detection System** | React | Node.js
  - Real client project for a Dubai-based car service center.
  - Implemented camera-based vehicle number plate detection for automated customer identification.
  - Integrated automated SMS notifications with service booking links.
  - Built payment system supporting Apple Pay, Samsung Pay, and physical payments.
  - Developed a loyalty program where customers receive a free service after three services.
- **SithaMithuru – AI-Powered Elder Care Application (Ongoing)** | React Native | Node.js | Firebase | SQLite | TensorFlow Lite
  - Real client project: Developed an AI-powered elder care mobile application to support elderly users and their guardians.
  - Implemented on-device emergency keyword detection using TensorFlow Lite.
  - Designed offline-first architecture using SQLite with Firebase synchronization.
  - Built medication reminder and monitoring features for elder safety.
- **EasyAuto – Car Buying & Selling Mobile Application** | React Native | Node.js
  - Real client project: Developed a mobile marketplace application for buying and selling vehicles in Sri Lanka.
  - Built side-by-side vehicle comparison feature for users.
  - Designed dealer and customer badge systems with promotional ad packages.
- **TalkGov – Government Services Centralized Portal** | Python (Django) | JavaScript
  - Developed a centralized web portal providing information about Sri Lankan government services.
  - Displayed required documents, processing fees, service timelines, and office locations.
  - Implemented an AI-powered chatbot to assist users in navigating government services.
- **Melody Masters – Music Instrument E-Commerce Platform** | PHP | MySQL
  - Developed a full e-commerce platform for selling musical instruments online.
  - Built a secure admin dashboard for product and order management.
- **GreenBasket – Farm-to-Home Marketplace** | Flutter (Dart) | Supabase
  - Developed a mobile marketplace connecting farmers directly with buyers.
  - Implemented produce listing, bidding system, and offer acceptance for farmers.

TECHNICAL SKILLS

Programming Language	**Java, JavaScript, Python, PHP**
Frontend	**React.js, Next.js, React Native, HTML5, CSS3**
Backend	**Node.js (Express.js), Django, Spring Boot , REST APIs, Authentication (JWT)**
Database	**MySQL, PostgreSQL, MongoDB, Firebase Firestore, SQLite**
API & Tools	**REST APIs, Postman, Git**
Testing	**Selenium, JMeter**
Cloud & Devops	**AWS (EC2, S3), Microsoft Azure, Docker, CI/CD Pipelines**
AI/ML (Basic Exposure)	**TensorFlow Lite, Neural Networks, Model Validation**

LEADERSHIP & EXPERIENCE

- **Webmaster** | IEEE CINEC Student Branch — 2026 - Present
  - Managed official IEEE CINEC social media platforms, ensuring consistent and engaging content delivery
  - Designed promotional materials including event flyers, posters, certificates, and digital assets
  - Collaborated with organizing teams to enhance event promotion and student engagement
- **Editor** | TechStrike Club, CINEC Campus — 2025 - Present
  - Led editorial planning and content publishing across club platforms.
  - Coordinated with team members to review and finalize technical articles.
  - Designed social media creatives and promotional materials for club events.

CERTIFICATIONS & ACHIEVEMENTS

- CodeRally 6.0 Hackathon — Intermediate Tier | IEEE Computer Society, IIT
- Machine Learning, AI & Neural Networks: A Complete Course | Udemy
- Data Structures and Algorithms: Complete Developer's Guide | Udemy
- Intro to Machine Learning | Kaggle
- Python for Beginners | University of Moratuwa
- AI/ML Engineer- Stage 1 | SLIIT UNI (Following)

LANGUAGES

- **English** | Working Proficiency
- **Sinhala** | Native Proficiency
